Especially in evidence in Cebu and Sohol were the Filipinos independence youth groups, which are among the most active propagandists and supporters of the break from United imperialism. Everywhere Thompson found the Filipino youth fired with a desire to break from the oppressive United States rule typified by Governor-General Wood.

Referring to the youth independence movement, one capitalist correspondent said: "This change (the demand of Filipinos in Moroland for independence) may be due to the rapid development of the independence movement among the youth. It is taught in the schools and so reaches all the girls and boys. A majority of working class leadership of the futhe school teachers are believed to be anti-American (the correspondent really means anti-imperialist). A recent feature is the establishment of clubs in the schools for independence

While interviewing various people from every strata of the population in Cagayan, in the Moro country, Thompson was presented with the emphatic protests against the Bacon bill from such leading cities in Mindanao as Butuan, Cabadbaran and Cagayan.

WORKERS PARTY RAISES YOUTH ISSUES IN 1926 ELECTIONS

LECTION day is coming 'round once again. In the atmosphere there is the sickly smell of the corruption and graft (of bought and paid for primaries, etc.) of the republican and democratic parties—the political representatives of the exploiters of youth and child labor. The entire record of the Coolidge administration, since the 1924 elections, has been that of strengthening the capitalist class of this country.

Party Election Drive

This week marks the speeding up of the congressional campaigns of the Workers (Communist) Party in more than a dozen states over the nation.

Petitions for candidates are being circulated where sufficient signatures have not already been secured to put the Communist ticket on the ballot; mass meetings are being planned, the distribution of literature is being developed, accompanied by drives for new members for the party and the league and subscriptions for The DAILY WORKER, Young Worker, and other party publications.

Candidates in Many States. Either state or congressional candidates, or both, will be in the field carrying the standards of the Workers (Communist) Party in Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Ohio, Michigan, Indiana, Illinois, Wisconsin and California, with prospects of Communist tickets in additional states. The Workers (Communist) Party

will also support the campaigns already on of the Farmer-Labor movement in Minnesota, South Dakota, Montana and Washington, and in other states where the drive for independent political action thru a Farmer-Labor Party shows signs of an imme diate crystallization.

We are just as interested as others to have our demands voiced politically. Yet we are discriminated against all along the line (high intiation fees and dues in the unions, unequal pay for equal work, etc.). At the same time we are politically discriminated against. We are not allowed to vote in the elections if we are between 18 and 21 years of age. What reasons, except those of benefit to the bosses, can be given for our political disfranchisement? In the Soviet Union, where the workers and farmers have their own government, the young workers over 18 are not disfranchised they vote in the elections and have say in the government. And it is just there where the working youth has the best conditions.

The Young Workers (Communist) eague raises the slogan in the 1926 congressional elections of:

THE RIGHT TO VOTE FOR ALL YOUNG WORKERS AND FARMERS 18 YEARS OF AGE OR OVER!

In order to fight successfully for this issue the working youth must line up behind the Workers (Communist Party in its demand for a united fron labor ticket in the elections. The Workers (Communist) Party will also place its candidates in the field in those districts where farmer-labor party, labor party or united front labor tickets have not been put up.

The Workers (Communist) Party raises the issues in the coming election of the abolition of child labor and government maintenance for the children. It further raises the issue that the youth of the land shall not be corraled into another imperialist war to safeguard the investments of the American capitalists in foreign countries. It demands the immediate reduction of the army and navy, the abolition of the Cifizens' Military Training Camps and the withdrawal of all American soldiers and marines from foreign territory.

INTER-RACIAL ATHLETICS.

SOCIAL discrimination against the Negro, in this supposed land of democracy and equality, takes many forms. One of the most flagrant and universal, the curiously enough one which has met with practically no attack and opposition by the advanced workers of both races, is that practiced in the field of sports.

To be true young Negroes, are so oppressed economically as to get very slipped from its chains and crushed little opportunity to participate in sports and athletics, but to the extent that him into a bloody, shapeless pulp. The they do they find themselves the vicims of systematic race discrimination and separatism.

An unwritten law bars Negroes from participation in tournaments held under the auspices of either the United States Golf or Lawn Tennis Association. The Amateur Athletic Union, that powerful governing body of American capitalist sports, carries out a tacit but stringent policy of exclusion against the Negro athlete.

This policy has now received a sharp challenge in the holding in Chicago recently, of the First Annual Inter-racial Tennic Tournament. The capitalist press itself, in headlines on its sports page proclaimed that this tournement is a "blow at tennis precedent." The significance of this tournament however carries far beyond the realm of sports, due to the fact that it was sponsored of them shook their heads and said by the Labor Sports Union, an organization for working class sports and athletics, and proving once again that the interests of the Negro are bound up in the progress of the labor movement.

The Inter-racial tennis tournement has demonstrated that sports is an excellent medium of bringing the working youth of both races in contact with drop in. Old Steve went away very each other. For this reason alone, if for no other, the example set in Chicago disappointed and surprised. "It's must be followed in every part of the country, not only in tennis, but in kinda queer Stevie, it's kinda queer," every field of sport.

YOUNG STEVE SEES RED

Of the more than 2,000 men working in Sloan's Foundry and Casting Work, no one was better known than the old onelegged, civil war veteran, Steve Tompkins who drew his pay check for acting

Strikes among mill workers in India are very prevalent just now. Strikes are continually occurring among the workers of the jute mills around Calcutta. In Bangalore recently strikers were fired on and three were killed. Over 7,000 mill operatives have gone on strike in the Indian state of indore, in demand for their annual bonus. These workers have to work 14 hours in the hot season and 12 hours during the cold weather. They are at present unorganized and helpless. After a second conference with the ambassador to Mexico, President Coolidge announces that there will be no change in the administration's policy towards Mexico.

The administration took advantage of the Mexican government's eng ment with the catholic church to force concessions from Calles in the land and mineral laws.

The Mexican national chamber of commerce attacked the policy of the Calles government and urged a protective tariff on importations, a reduction in wages and longer working hours for Mexican labor.

Lieutenant Walker says "the Bolsheviks and the Communists are enemies of labor." He does not and cannot prove this statement to be true, because the working class sees the Communists in the forefront of every vorking class struggle. The working class sees the Communists serve erms in jail and sacrificing their lives for the interests of the working class only. The workers have witnessed the Communists as the leaders and supporters of the Passaic strike, the ing class sees Soviet Russia support- reviewing stand and said: ing the British miners by the embargo of coal and the trades unions in Soviet Russia sending financial aid to the striking miners.

Filth Against Workers' Russia. "Russia is America's greatest enemy ecause she has a much larger army than America has," says Lieutenant Walker. Why does not the lieutenane tell us of the bloody intervention Russia suffered before and after the setting up of a Soviet Republic? Why doesn't the lieutenant tell us of Amerlca. Why doesn't the lieutenant tell us that every capitalist nation is a deadly enemy to the workers' government, says. What we want to know is, what | Soviet Russia. And what's more, Russia is still willing to reduce her armaments if the capitalist nations reduce theirs. But instead of America reducing her armaments ,she increases them. How. By spending millions of dollars for the manufacture of better and more destructive ammunition. And, most of all, by spending millions of dollars in training the hundreds of thousands of the young men of this country in the C. M. T. T. S.'s. R. O. T. C.'s. etc. in the army? Will they not be drafted in time of war? Sure they will and they will be the first ones to be drafted because of their military training given them in the C M. T. C.'s. A very clever policy this bosses' government has adopted indeed.

"Preparing for Peace," Hell!

The United States has her eyes on Chicago also, and is shouting "open the door," so I too can exploit the Chinese workers and farmers. It is just this struggle for new territory and sources of raw materials (oil, rubber, etc.) which leads to competition between United States and foreign bankers on an international scale and thus to world wars. Thus when the lieutenant says that we are giving military training to the youth, appropriating \$85,000,000 for airplanes, improving poison gases and methods of fighting wars with disease germs all in "preparing for peace." he is kidding no one but himself.

The lickspittles of the capitalist class think they can fool the millions of workers by showing them the pictures of the C. M. T. C. candidates registering contentment and enthusiasm. The boys here after they were compelled to do this, were bitter with resentment against the officials. They kept murmuring "Wait till we get home and we'll tell 'em this is a fake."

Yes, it's a very clever scheme indeed. The workers may be fooled once, twice and then some more but conditions will prove for themselves. THE writers of the military trainling propaganda, whose creations adorn the pages of the many newspapers that avail themselves of the free service, are not without humor.

Witness their continued reference to the "mental, moral and physical development" attained by attendance as a "student" at one of the C. M. T. C. posts.

Plattsburg is notably the home

of the C. M. T. C. idea. A stone's throw from regimental headquarters is the site of one of several places known to the writer hereabouts where genial bartenders dispense pre-Volstead fluids that cheer and befuddle. That explains the dismissal of more than one "student camper" for noticeable intoxication.

The naive reason for its existence, which comes under the Jurisdiction of the local military police, is that the nearness of Canada might inspire absences without leave if the lid were clamped on Plattsburg.

Some misguided enforcement officials spoiled a New Year's Eve party at the local Elks' clubhouse, but since then their activities have been markedly discreet.

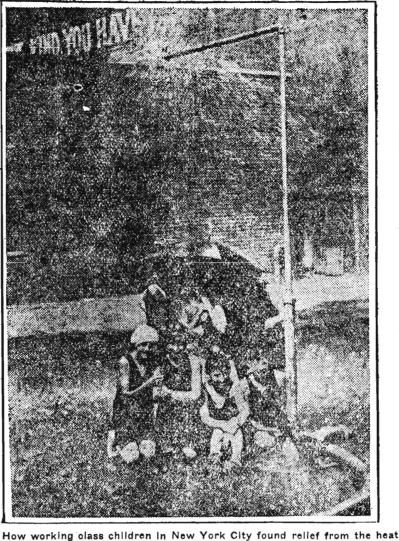

As a gesture to those who found bayonet drill brutalizing, the war department banned that art from its "mental, moral and physical" curriculum.

I am enclosing \$1 to pay my spbscription to the above paper. The following clipping I cut from the Examiner, Arthur Brisbane's spotton. You may have read it:

The Belgian king, of course, is having his thinking done for him, by Belgium's financiers, as proved by the transfer of state-owned rallroads back to private ownership. The socialists, whose numbers could prevent it, consent, because they have no program to offer.

I am very skeptical of what Isread in the capitalist papers concerning the working class, but, judging the socialist leaders by their past actions, the above sounds very reasonable.

I had great faith in the socialist party before the world war, but that long ago by the cowardly stand they fighting for a better system to live under.

By GERRY ALLARD, Young Coal Miner.

Frank Farrington, the notorious misleading president of District No. 12, United Mine Workers of America, has finally been exposed of his fakery and sell-out of the miners. The District Ladies' Garment Workers' Un-Executive Board at its meeting declared that Farrington had been suspended and for him to immediately return to face trial. Farrington is at the present time in Europe as a fraternal delegate to the British Trade Union Congress, representing the American Federation of Labor.

Farrington's Last Sell-Out.

John L. Lewis, another typical Farrington, exposed him of signing a \$25,000 contract with the Peabody Coal Co., one of the biggest organizations in the coal mining business. Lowis's exposure of Farrington is merely another incident of the warfare that has taken place between the two when they fell out several years ago. Frank Farrington and John L. Lewis's machine have been a cancer to the organization of the coal miners and they are the responsible fakers for the present deplorable conditions of the Coal miners in America. The crumbling of the union is due to the continuous united front with the bosses against the coal miners. These union officials' records in the organization are nothing else but a series of mell-ourts, corruption of the U. M. W. A. and the framing up of militant miners who worked hard to put the minwers' union in a healthy state and to fight on the basis of the class struggle. On many occasions they united with the bosses and the government officials to railroad the militant miners to prison. LOS ANGELES, Calif.-Local ion is engaged now in a big drive to organize the girls working in dress shops. The present conditions of the girls in the dress sweat shops here are intolerable. Wage are as low as \$8 a week. The highest wage for a girl dressmaker in the open shops is \$18 a week.

The hours of labor run from 45 to 50 hours a week. The dressmakers' branch, which is mostly composed of young girls, is actively engaged in the campaign to line up the open shops. Leaflets in the English and Mexican language showing the gains and conditions of the fighting dressmakers in the east and cassing upon the girls to join the union are being distriubted in front of the shops. On Thursday, August 19, a mass meeting was held and many joined the union.

STRIKE OF YOUNG HAT WORKERS IN PERTH AMBOY GROWING DAILY

By Young Worker Correspondent.

PERTH AMBOY, N. J .- In the general organization campaign of the American Federation of Labor, being carried on here. the United Hatters of North America are organizing the hat worerks of this city, all employed in Sarnoff-living's three hat factories on Sheridan Street.

The conditions under which the Perth Amboy calling upon them to young workers are employed here are not of the best. Miserably low wages tin on the way home. All the em- and all kinds of punishments are ployes in the factory, starting with | handed out. The average wage for the youth (and many have been workhandling melted steel and iron, and two to three years in the plants) ranges from \$14 to \$23 per week.

Punishment for Youth.

If a young worker comes to work a few minutes late or dares to ask for a raise he or she is laid off for three days-even for a week. Working under these conditions the work ers realized the need for organization and pitched in to accomplish it.

During the last week the boss fired 18 workers for joining the union. This so enraged the workers in the plant that they declared a strike. Under the leadership of the United Hatters of America, they have put up the following demands: 1. Reinstatement of all fired workers. 2. An increase in wages. 3. Recognition of the union. The strike has affected both the felt and straw hat departments. The three plans employ about 300 workers, the big majority of which are young workers. Altho the strike is only three days old, about half of them

Plans to Spread Strike.

Plans are being made to spread the strike to Sarnoff-Living's plant in Tottenville, N. J. Also picketing is done every day. Strike meetings are held every day at 9 a. m. in Columbia Hall, on State street. More and more workers are joining the strikers' ranks. Michael Condrin, organizer of the union, is in charge of the strike. The fact that the busy season in the hat industry has just begun holds prospects for the success of the struggle. The Young Workers' League and the Pioneers are actively participating and the Y. W. L. has issued a leaflet addressed to all young workers of support the strike.

The Young Workers' League calls upon all workers to support the striking hat workers of the Sarnoff-Living Hat Works of this city.

SILK MILL WORKERS **CONTINUE SCRAP**

Against Wage Cut and 6-Loom System

By Young Worker Correspondent.

LOWELL, Mass.-When you look at the building of the Lowell Silk Mill with its nailed down windows, you get the impression of a prison. Thru the bing. One striker, A. Panarisi, was dirty window panes you can see only so terribly maltreated that his arm pale spots of the electric lights and a was broken and he had to be rushed dizzy noise breaks thru the thick walls to a doctor. Others show huge black into the narrow streets. Four hun- and blue spits on their bodies. The dred human beings are imprisoned in clubbing was done so savagely that this mill, 90 per cent of them young girls who just left school to spend out to his men, "Don't hit them so their youthful days among looms, rats, hard." roaches, dirt and breathing the hot, damp air with a constant temperature local of the U. Yes it was hard, practically impossible to work, breathe, keep up our Commissioner Preiskel and himself families and be healthy under such that the A. F. of L. would be welcome conditions. On the top of this the to come to Passaic? Is Zober deterbosses wanted us to run 6 looms in Imined to continue taking his orders stead of 4. They wanted to cut our from the mill bosses, in the face of an wages 33 per cent.

Our wages were so low any wayfrom \$9 to \$12 in the average and the new system would make it impossible bosses? for us to work. It would ruin our health completely. This is why we went out on strike. This is why every morning about 100 strikers picket the mill gates singing our strike songs. Our beloved son, Solidarity. This is why we demand a 20 per cent increase in wages-Yes we want some of the silk we are weaving. We want some of the sunshine and air. We want sinks to wash our hands in. We can't wash our hands in rusty pails. We want a sanitary chest in the mill and a resting room too. We think we have a right to use the elevators instead of climbing 5 flights of stairs.

all we want a union—an organization to protect the interests of the workers in the Lowell Silk Mills against our enemies—the bosses.

We learned to do many things during the strike. We have many young workers in the strike committee. This morning the picket line was walking along quietly and had no trouble with the police, altho there were plenty of policemen about, until Chief Zober drove up in his automobile and gave instructions to his men. Immediately, without a word of warning, Zober's men rushed at the picket line and engaged in an orgy of clubeven Zober, who had ordered it, called
